ABOUT THE COLLEGE

The benefit of education, let alone higher education was a distant dream to the people of this backward region until the late forties. It was in this

backdrop, the philanthropic and munificent members of the merchant community of Virudhunagar teamed up and founded VHNSN College in their own town in 1947.

Under their benevolent patronage, the college registered a phenomenal development, blossoming into a post-Graduate institution as early as 1967. Today, after 70 years of its inception, VHNSN College has grown from strength to strength, scaling new heights, crossing many a milestone on the academic road.

VHNSN College offers a record number of courses to the student community. There are as many as 19 Under-Graduate courses and 18 number of Post-Graduate courses are also available here. Thirteen disciplines offer M.Phil courses and Ten departments viz. Commerce, Mathematics, Physics, Chemistry, Botany, Zoology, English, Computer Science, Management Studies & Microbiology are research centres.

Special Mention must be made about the glorious tradition followed in the appointments of staff and admission of students. Members of various faculties are appointed here purely on merit. Students are admitted irrespective of their religion, caste or creed. Capitation fees and donations are not at all collected. The college was accredited with 'A' Grade by NAAC and has been bestowed with autonomous status by UGC. No wonder, all these singular credits of this great institution have helped it carve a niche for itself in the realm of higher education.

ABOUT THE DEPARTMENT

The Department of Commerce of our college, started in the year 1953, offers under-graduate and post-graduate courses in Commerce. The department is also offering Diploma course on 'Computerized Accounting' to improve the employability of students. It is a recognized Research Center in Commerce. It pursues research on various business and management related issues. It has produced more than 250 M.Phils, and 60 Ph.Ds. Apart from spacious class rooms, separate conference hall, library and computer facilities with internet, the department is equipped with a dedicated team of 17 staff members who are specializing on divergent and emerging areas of commerce.

ABOUT THE CONFERENCE

India's workforce in formal and informal sector is still plagued with several challenges, like low productivity, inequitable access to education, gender and geographic constraints, lack of quality skills training, etc. despite efforts made by National Skill Development Corporation (NSDC). Therefore it can be clearly stated that Modi's 'Skill India' programme is indeed the need of the hour. Where 1 out of every 3 individual in the age group of 15-29, who have completed at least their graduation are found to be unemployed. Vocation training and skill development is the only medium by which the youth can be empowered and unemployment and poverty can be kept at a bay.

Providing vocational and soft skills training to youths of India that has the highest demographic dividend is indeed a noble and judicious undertaking. The objective of the National Conference is to spread awareness on skill development, raise confidence among the youth and inculcate the scheme of skill India campaign among the rural youth. It will create and pave a way to train students that will lead to achieve the 'Mission Mode' of Prime Minister Narendra Modi to pour "Brain Rain" for the Indian youth with skills and updated technology.

The Mission Mode motivated us to organise a Conference on this burning issue and to bring together academicians, the business community, researchers and students to interact and share their expertise, experiences, insights as well as thoughts from research and practice
