PART A

Planning becomes inevitable in any part of an organization as it gives an opportunity to grow in multitudes. To improve the quality in educational institutions, planning has to be implemented as part of every year's agenda.

The following are the identified areas where planning can be worked out:

- ❖ Launching of new courses with the future need and the students' interest in mind.
- ❖ Adding infrastructure to already existing traditional courses.
- ❖ Proper designing of the skill based courses.
- ❖ Creating an environment to the students where they can learn what they need.
- ❖ Conducting programmes which would enhance the employable skills of the students
- ❖ Teachers are to be encouraged to upgrade themselves – registering for their research, participation in seminars, conferences, symposiums, refresher courses and orientation programs.
- ❖ Encouraging teachers to apply for Projects both Minor and Major levels with the support of UGC and other agencies.
- ❖ With the same agencies, they can get assistance to organize seminars and conferences.
- ❖ With ongoing active research process, the centres of Research may handle viva-voce sessions inside the campus itself.
- ❖ Introduction of new add-on courses which would prepare the students to sell themselves in the job market.
- ❖ Charting out programmes which would make the campus conducive for gender equality and equal opportunity for all sections of students.

PART-B

1. Activities reflecting the goals and objectives of the institution

- ❖ Many activities were taken place during the academic year reflecting the goals and objectives of the institution.
- ❖ Many extension activities were taken to mitigate the rural – urban divide.
- ❖ Schemes for women empowerment were carried out.
- ❖ Every step was taken to incorporate the spirit of excellence in every academic and allied activity so that the quest for excellence is sustained.
- ❖ The Management has come forward with new initiatives to promote research among the staff members and scholars like financial assistance, free internet access, e-journal facilities, etc.,
- ❖ To develop harmony and culture amidst the student community, the Management extends its all support to College Fine Arts Club. This would also lead the students to involve in extracurricular activities.

2. New academic programmes initiated (UG and PG)

M.Phil. History

A one Year Pre-research programme has been offered by the Department of History with a view to provide ample opportunities for the students to carry out research in ancient and modern Indian History.

M.Phil. Microbiology

To cater to the research needs of the Post Graduates in Microbiology, initiatives have been taken to introduce M.Phil. Microbiology from this academic year. It is hoped that the new course will provide adequate opportunities for them to pursue pre research degree in Microbiology and increase their employability in the relevant area.

Certificate Course in Communicative & Functional English

To enhance English proficiency of the students, a one year Certificate Course in Communicative & Functional English is introduced. It is believed that the Course will improve the communication skills of the students in English and place them in good chance of getting employment in MNCs.

Guest lecturers were arranged to make the students aware of the avenues open before the students after completing their courses including the higher studies by inviting experts from various fields.

37. Placement services provided to students:

Active Placement Cell has been functioning in the college for the past two years to facilitate employment opportunities for the students. The principal objective of this cell is to provide career guidance and counseling to the students. The cell gives training to students in effective communication in English. It collects bio-data from the final year students and sends them to various companies. It takes our students to other colleges for campus interviews. It invites many corporate companies to our college to conduct campus recruitment in our premises. It teaches interview techniques to students by conducting mock interviews. It organizes group discussions among students. It endeavors to enrich their English vocabulary. It tries to develop their body language and offers them special training in soft skills such as positive thinking, analytical ability etc. More than eighteen campus interviews have been arranged in this year.

PART C

Executing a plan is very essential in any concern and it needs to be reviewed at different stages. The feedbacks to be collected from those who are at the receiving end and every return has to be weighed and taken action on it. The developmental activities are to be looked at in a peculiar way since those are necessary in any growing situation. The year plans are to be considered for what such where planned and were the plans devised and what was the finance planned to be invested and also the work force employed for the execution of the same. Every year such a plan is essential to decide the future action. Of course these can be done only with the support of University Grants Commission and its financial contribution, other Governmental agencies like CSIR, DST, apart from the contribution of the Management.

FUTURE PLANS

- To construct an additional storey with a few class rooms, a laboratory and other necessary facilities on the first floor of KCSR Block to accommodate the students of the professional courses that come under AICTE.
- To install a new, modern, versatile steam-cooking unit at our college boys hostel.
- To construct a concrete Basket-Ball court with flood-light facilities in our college play-ground.
- To purchase one more new bus for the conveyance of girl students coming from nearby areas.
- To construct a new ladies hostel as there is a gradual increase in the strength of the girl students.
- To provide 3 MBPS -high speed internet facility to all the departments.
- To renovate and rejuvenate the hostel buildings, so as to make the inmates feel at home.
